SUMMARY

I'm a front-end developer with more than 6 years of work experience in web development.

I have worked in several projects as a web developer but also as an assistant project manager. This gives me a good knowledge of every aspect of a project and of what can make it a success.

I have a strong passion to create cutting-edge and high quality websites, and the technical web development experience required to make it happen.

I am working fully remotely since June 2017.

EXPERIENCE

Springload
Wellington, NZ — 10/2015-Now

Front-end developer specialised in Javascript / React / Redux.
I have been working on many different projects from nationwide banks to small web apps to help people to vote.

Accomplishments

- https://www.votelocal.nz/ - Awesome React app to help democracy in New Zealand. Award winning app.
- http://www.onthefence.co.nz/ - revamp of VoteLocal for the General Elections. Big national success on the target population.
- https://www.kiwibank.com/ - Redesigning of few calculators using React/Redux
- Kiwibank Kiwi Wealth, Wellington Airport, NZ Festival, Inquisitive.com, etc.

EDUCATION

* University of Paris-Sud — Master's degree of Computer Science and corporate management - 2012
* University of Paris-Sud — HND Computer Science - 2009
* A Levels, Scientific - 2007

SKILLS

- React / Redux
- Node.js
- HTML
- CSS3

REFERENCES
